Introduction module

“Good morning/afternoon/evening, my name is (INTERVIEWER NAME) from ORC International, an independent research company. We are carrying out a national study on behalf of the Australian Sports Commission, to find out about participation in sport and other physical activities. (The government would like to get a snapshot of what the Australian population has been doing in terms of physical activity and sport, irrespective of whether you do any at all.)

The information you provide will help the Australian government to encourage more Australians to be active. The survey will take approximately 10-12 minutes to complete, depending on your answers.

(IF ASKED HOW PHONE NUMBER WAS OBTAINED: Your phone number was randomly generated by a random digit dialling system.)

Landline: Usual resident of that household, aged 15 or more, and that had the last birthday.

Mobile: Aged 15 or more, not currently driving, main user of the mobile phone.

Firstly, I just need to ask a few questions to make sure we get a good cross section of people and to help us identify whether you are in scope for the survey.

Activity In the last 12 months, what sports or physical activities have you done? Please start with the ones you have spent most time doing.

What other sports or physical activities have you done for exercise or recreation in the last 12 months? Please include activities even if you've only done them once or twice in the last year.

When respondent running out of activities, probe: **Please include exercise or activity that you have done 'virtually' through a motion sensing game console such as a Wii, Xbox or PS3Move.**

For any activity code mentioned by a respondent and that contains an National Sporting Organisation (NSO) activity product, the interviewer will probe to find out which NSO activity product was done, by reading out the list of potential activity products. **You have said that you have done {e.g. tennis} in the last 12 months. Was that cardio tennis, etc?** The respondent will also be asked whether they have done any other form of the sport. => sub-activity (input) level
