AUSTRALIAN SPORTS COMMISSION

Section 1: Agency overview

The Australian Sports Commission (ASC) is the Australian Government body that funds, manages and develops sport at all levels in Australia. It provides leadership, co-ordination and support for the sport sector while promoting an effective national sporting system that offers improved participation in quality sports activities by all Australians. Additionally, it assists those athletes that are talented and motivated to reach their potential excellence in sports performance.

The Government's required outcomes of the ASC are an effective national sports system that offers improved participation in quality sports activities by Australians and to secure excellence in sports performance by Australians.

1.1: SUMMARY OF AGENCY CONTRIBUTIONS TO OUTCOMES

The products and services delivered by the ASC (outputs, products and services) which contribute to the achievement of outcomes for the ASC are summarised in Table 1.1.

Section 3: Agency outcomes

General government sector (GGS) agencies are required to plan, budget and report under an outcomes structure. GGS agencies produce outputs (departmental items) and also administer activities and programs on behalf of the Government (administered items). This section explains how the resources identified in Section 2 will be used to deliver outputs and administered items to contribute to the two outcomes for the ASC.

SUMMARY OF OUTCOME 1

Figure 4.1: Outcomes and output groups

Note: Revenue from Government (Appropriations) contributes 92.5% to the Total Price of Outputs for Outcome 1.

OUTCOME 1 – DESCRIPTION

An effective national sports system that offers improved participation in quality sports activities by Australians.

The Government envisions a national sports system that is robust and self-sustaining backed by a dynamic sports industry that plays a vital role in the development of sport in Australia at all levels. The Australian Sports Commission (ASC) plays a central leadership role in developing this holistic sports delivery system.

The ASC works with sports delivery agencies, including grassroots sporting clubs, to enhance their ability to offer improved participation in quality sport for Australians, while at the same time ensuring that Australia's elite teams are provided with the optimal opportunity to excel in competition on the world stage.

The ASC plays a vital role in fostering cooperation in sport between Australia and other countries by providing resources, services and facilities related to sport. Our national successes have allowed us to export our expertise overseas as well as to work with other countries to assist in the development of their communities through sport.

OUTCOME 1 - RESOURCING

Contributions to achievement of Outcome 1

Output 1.1 – National Sport System Development

The ASC's output to ensure an effective national sports system reflects the Government's commitment to foster, support and encourage sport development from grassroots community sport through to high performance sport.

By working with its key stakeholders, the ASC will:

- provide integrated services and support based on their individual needs, and priorities, and capacity to contribute to the ASC's objectives;
- provide specialised sport sector expertise and knowledge (e.g. high performance, governance, business management and planning, coaching & officiating, on-line education);
- develop strategies and programs to improve recruitment of new participants, better management of clubs, accreditation of sport coaches and officials, and access to quality sport for target population groups;
- deliver Active After-school Communities (AASC) program;
- negotiate strategic partnerships to increase involvement in grassroots sports;
- design, implement and manage funding and service level agreements (FSLA) with national sporting organisations (NSOs) and state departments of sport and recreation;
- provide leadership in the promotion of the integrity of sport; and
- actively contribute to international community sport development programs while increasing understanding of trends in sport internationally.

The output also contributes to the Government's interest in developing initiatives to increase sources of, and opportunities for, off-budget revenue. It also contributes to strengthening, through sport, the Government's engagement with overseas partners, in particular in the Asia-Pacific region.

Further, it reflects the ASC's role in providing advice to Government and other entities on policy issues affecting the development of Australian sport, and its charter to examine avenues to diversify and increase the sport resource base.

OUTCOME 2 – DESCRIPTION

Excellence in sports performances by Australians

Maintaining Australia's level of success in international sport remains a challenge. The ASC is committed to strengthening Australia's high performance sport system, and backing Australia's sporting ability to enable Australian athletes to excel at international competition.

Each Australian Institute of Sport (AIS) program has a unique role in the international elite sport pathway with programs focused at either the elite senior or developmental level. Through the AIS, the ASC provides a world-class training environment to support AIS athletes and coaches, including services such as planning and evaluation, athlete and coach services, and technical direction.

The ASC underpins excellence in sport performance by providing services, funding and support in order to strengthen national sporting structures. Such assistance provides Australian athletes and coaches with the support systems and programs to sustain and build international sporting success.

Output 2.1 – National Elite Athlete Development

The ASC's national elite athlete development output reflects the Government's commitment to work in partnership with NSOs and State Institutes and Academies of Sport to deliver high quality sports excellence programs to ensure that Australian athletes excel at the highest levels of international competition. The ASC will continue to lead and facilitate a nationally coordinated approach to the planning of High Performance Sport for the 2005-09 quadrennium, which aims to apply the collective resources of the ASC, the AIS and State Institutes and Academies in a coordinated fashion in order to achieve the maximum return in terms of elite performance.

The ASC will work in partnership with the Australian Sports Anti-Doping Authority (ASADA) in the fight against doping in sport.

The ASC will conduct an Athlete Support Scheme which will assist our top athletes to sustain the training regime they need to maintain top level status for competition.

The ASC will continue to strengthen the effectiveness of the AIS by maintaining its continuous improvement philosophy and by providing innovative and integrated support services to enhance athlete and program performance. The AIS will also provide technical and national program leadership to Australian sport.

Changes in employee, supplier and grants expenses are a function of the implementation of these programs.

Statement of Financial Position

Changes in Loans from 2007-08 reflect the proposed restructure of the repayment of loans by the Football Federation Australia (formerly Australia Soccer Association) and ASC's subsequent repayment of the loan from the Department of Finance & Administration.

Statement of Cash Flows

Change in Net Cash from Operating Activities from 2006-07 to 2007-08 reflects increased funding for the AIS, University Sport and the increased funding for AASC programmes.

Changes in Investing – reflect the proposed restructure of the repayment of loans by the Football Federation Australia (formerly Australia Soccer Association) and ASC's subsequent repayment of the loan from the Department of Finance & Administration.
