

Key findings: Ongoing impact of COVID-19 on sport and physical activity participation

June 2021 update

The following activities experienced significant* increases in overall participation from 2019 to 2020. All of these were either accessible in a COVID-19 environment or able to be performed socially distanced.

- Walking (recreational)
- Running/jogging/athletics
- Cycling
- Bush walking
- Swimming
- Yoga
- Golf
- Tennis
- Fishing (recreational)
- Mountain biking

Sport Australia is using its two national surveys – AusPlay and the Community Perceptions Monitor – to understand the impact of COVID-19 on sport and physical activity participation. For further information please read the [full June 2021 update](#) and the [original report](#) published in October 2020.

* Statistically significant change year-on-year.
